GRID

**Be Energy Independent with the Godman Grid™,
a Complete Mini Electric Grid**

Godman GRID™ is manufactured in the USA by Godman Power Group, Inc.
USA Headquarters: 6564 Loisdale Ct., Suite 600, Springfield, VA 22150
Sales and Support: +1-888-519-9266 | sales@godmanpower.com

POWER **HOWEVER** YOU NEED IT.

For power away from the grid, choose the Godman GRID™.

Manufactured in Virginia, generators charge with solar, wind, or electrical grid - available in 60 or 50 hertz. These powerful portable generators are excellent for power outages, disaster recovery, contractors, and location or where portable or supplemental electricity is needed. Comes complete with 2 hinged solar panels (total 350 watts), cable, and fully charged battery.

POWER **WHEREVER** YOU NEED IT.

- Manufactured in the USA with American made components.
- Quiet, clean, with battery storage.
- Made for rugged use.
- Steel enclosure, powder coated finish, with additional colors, and non-reflective surface and handles available.
- Portable and power is available instantly, with 3.5 kilowatts.
- Additional Model 240 is available for water pumps (up to .75 hp).
- Patented and winner of the FEMA Technology Award.
- Comes fully charged, with all components, two solar panels, hinged and pre-wired, detachable cable.

COMMITTED TO **RESILIENCE & CLEAN POWER**

Built for rugged use, and capable of running high-amp equipment. No sparks or danger of brush fires.

INSTANT POWER

Take it out of the box and power on! Units come fully charged and complete with solar panels, cable, ready to plugin.

ENERGY INDEPENDENCE

Godman generators are mini power plants. They can be placed anywhere to supply power, being constantly replenished by solar, wind, or water. Rugged construction means these units can withstand hot and cold temperatures.

PRODUCT SPECIFICATIONS

- Rugged Unit Construction: Steel chassis, rugged handles, easy-roll wheels
- Charged Unit: has 3.5 kilowatts (10-kilowatt surge)
- Voltage and Hz: 110, 220, or 240 VAC; 50 Hz or 60 Hz
- Outlets: Universal Outlets
- Unit Size: 28" x 15" x 30"
- Weight: 260 pounds
- Solar Panels: Two 175-Watts (26"x 59", 17 lbs. each) hinged, stand-alone panels, cable
- Battery: 245Ah, 12VDC maintenance-free, long life, deep-cycle AGM battery
- Energy Output Inverter: 3.5kWh (10kWh surge) inverter
- Complete Digital solar charge controller
- Pure Sine System
- Pre-wired auxiliary portal for additional panels, optional micro wind, or water turbine
- Can be charged in a regular wall outlet
- Also available: additional solar panels, panel racks, additional cable, cable links, and microwind for the Godman GRID™
- Microwind for the Godman GRID™ comes with cable, plugs directly into GRID
